Alexandria, Egypt (Remote)

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 5+ years building scalable, high-performance web applications for European and international companies. Specialises in React and Next.js, with a track record of modernising legacy systems, improving application performance, and contributing to frontend architecture decisions. Comfortable working cross-functionally in remote, distributed teams.

CORE COMPETENCIES

React.js & Next.js

TypeScript & JavaScript

Frontend architecture

Accessible responsive UI

State management (Redux / React Query)

Jest & Cypress testing

Legacy system modernisation

Remote EU collaboration

WORK EXPERIENCE

GureTruck - Spain

2023 - Present

Senior Frontend Developer

Remote

- Led the full refactoring of a legacy logistics platform into a modern, scalable React application, resulting in measurable improvements to load performance and a significantly faster onboarding experience for new developers.
- Contributed to frontend architecture decisions including component patterns, folder structure, and state management strategy, helping establish clean and maintainable conventions across the codebase.
- Designed and implemented responsive, accessible UI for complex transport and logistics workflows, ensuring a consistent experience across devices.
- Participated in code reviews and provided informal technical guidance to other frontend contributors, helping raise overall code quality.
- Wrote unit and end-to-end tests using Jest and Cypress to improve reliability of critical user journeys.

Conversation 24 - Netherlands

2022 - 2023

Frontend Developer

Remote

- Maintained and stabilised existing frontend codebases, reducing bug frequency and improving overall reliability of the chat interface.
- Built and enhanced UI components using React, HTML5, and CSS3, with a focus on cross-browser compatibility and accessibility.
- Collaborated closely with the backend team to integrate real-time features, ensuring seamless and responsive user interactions.

Military Service

2021 - 2022

National Service

Egypt

- Fulfilled mandatory national military service duty.

Bravo (Wasla) - Egypt

2019 - 2021

Frontend Developer

Egypt

- Developed the client-side of Wasla's web applications using ReactJS, HTML5, and CSS3, ensuring responsive and user-friendly interfaces.
- Translated product requirements and design specifications into functional, interactive web features, collaborating directly with the product and design teams.

PROJECTS

Airbnb Clone Full-stack

Full-stack property rental platform with social login, property listing with image upload, and advanced search and filtering.
Next.js, Tailwind CSS, Prisma, MongoDB, NextAuth

EDUCATION

Frontend Development Diploma	ITI Intensive Code Camp	Jun - Nov 2023
Frontend Development Diploma	Route	2018 - 2019
Bachelor of Science	Alexandria University	2015 - 2020

SKILLS

Core: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SASS
State & Data: Redux, Redux Toolkit, React Query, Context API **Testing:** Jest, Cypress (unit + end-to-end)
Tooling: Git, Docker, AWS, Webpack, Vite **Other:** WordPress, SQL, Kibana, OOP, RESTful APIs
Languages: Arabic (Native), English (Professional)
